MEAN Full Stack Web Development
Dec 2016 | V-School

BS, Finance
May 2009 | Westminster College

WEB DEVELOPMENT PORTFOLIO

The Flybox | [LIVE](#) | [GITHUB](#)

A full stack web application that allows for fly-fishing blog curation.

- AngularJS MVC used to consume Feedly API requests
- Custom RESTful node.js server with JSON requests to MongoDB

Jazz Preview | [LIVE](#) | [GITHUB](#)

An interview project, requesting to combine 3 pages from the old Jazz website into 1 modern page.

- AngularJS with Angular Material & UI Bootstrap

Baby Registry (group-project) | [LIVE](#) | [GITHUB](#)

A full stack MEAN application which allows a mom to create registry for their babies.

- Modular AngularJS front-end with custom RESTful backend for searching and creating registries
- Requests using Walmart API
- Bootstrap for page layout and formatting

Rufus Tracker | [GITHUB](#)

A website dedicated to tracking both potential upgrades and their total cost.
